Should be no problem. That's a Tuesday, and the inspections are on Mondays and Thursdays. It'd probably be better to not be there during an inspection, since they are time consuming and would delay Carl.

I'll plan to be there as well.

Thanks for the heads up.
Adam

Adam

Please see email below. Carl Edlund is planning a one day trip to the sites in Houston with Gary Miller and USOR is one of the sites he plans to visit on May 7th. Personnel from Harris County would be there as well. Is your contractor available for that day (can they schedule the inspection on that day) and will they be able to meet them and show them around the site? Right now Gary does not know the schedule but will be in touch as soon as he know. Please let us know what works. Thanks.

Subject: San Jacinto, Patrick Bayou, and US Oil Recovery Site Visits

Bob, Linda, and Stephen,

As we discussed before, Carl Edlund, the Superfund Division Director, is planning a one day trip to visit the San Jacinto, Patrick Bayou, and U.S. Oil Recovery sites as well as to meet with his counterparts from your agencies. Please let me know whether Tuesday, May 7, 2013, would meet with everyone's schedule. The current plan is for the EPA folks to fly to Houston in the morning, drive to the sites as a group, and then fly back that evening.

Bob, would that van you mentioned before be available on that date?

Thanks,

Gary Miller
